ON PATENTABILITY**

International application No.
PCT/EP2004/014226

Box No. V Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. Statement

Novelty (N)	Yes: Claims	10-13
	No: Claims	1-9
Inventive step (IS)	Yes: Claims	
	No: Claims	1-13
Industrial applicability (IA)	Yes: Claims	1-13
	No: Claims	

2. Citations and explanations (Rule 70.7):

see separate sheet

Re Item V.

- 1 Reference is made to the following document:
D1 : WO 03/024982 A

2.1 Novelty: NO claims 1-9

The present application does not meet the criteria of Article 33(1) PCT, because the subject-matter of claim 1 is not new in the sense of Article 33(2) PCT.

Document D1 discloses monocyclopentadienyl complexes and their use as catalyst component for the polymerization of olefins.

2.2 Novelty: YES claims 10-13

The compounds of claims 10-13 do not appear to have been disclosed in the prior art.

3. Inventive Step: NO claims 1-13

Given the lack of novelty for claims 1-9, no inventive step can be recognized for the subject matter of these claims. The compounds of claims 12,13 can be seen as intermediate products for the end products which form the subject matter of claims 1-5. For such intermediate products, inventive step is judged in the light of the presence of an inventive step for the end products to which they lead. As these end products are considered to be not inventive, no inventive step can be acknowledged for the compounds of claims 12,13, and consequently neither for their preparation (claims 10,11).
